FIELD NOTE 11

AI Work Order Prompt Template

Turn vague AI requests into scoped development tasks that are easier to review.

Goal -> Context -> Constraints -> Acceptance -> Verification

GOAL

- What should change?
- Why now?
- Who benefits?
- What stays stable?

CONTEXT

- Relevant files
- Current behavior
- Known patterns
- Prior decisions

CONSTRAINTS

- No new dependency
- No unrelated CSS
- No schema change
- Preserve API shape

OUTPUT

- Plan first
- Patch small
- Run checks
- Report risks
